

MONOTEK®

THE SMART & COLOURFUL CHOICE IN APPLIED FLOORING

- Decorative colour selection
- One (1) hour fully cured & ready for full traffic
- Hardwearing & long-life commercial flooring
- Seamless & resilient flooring / easily cleaned
- Highly abrasion, UV & chemical resistant
- Workmanship & materials - 5 year guarantee

MONOTEK® MonoChip® is an exciting range of **MONOTEK®** MMA resin based, trowel-applied flooring systems with large multi-coloured chips/ flakes that are broadcast & sealed-in into the flooring surface. **MONOTEK® MonoChip®** systems have all the usual outstanding benefits of the **MONOTEK®** flooring systems (i.e. self-levelling, rapid setting, highly flexible, UV resistant, hard wearing & hygienic) but with the design flexibility to offer bold large multi-coloured chip finishes. **MONOTEK® MonoChip®** flooring provides an easily cleaned & relative smooth flooring (slight texture provided by the colour chips) or a long-life anti-slip medium can be incorporated into the flooring where required.

The in-built resilience & flexibility of **MONOTEK® MonoChip®** flooring also ensures that it is able to withstand heavy impacts & even substantial substrate movement without compromising the hygienic seal of your flooring surface. **MONOTEK® MonoChip®** can be easily & rapidly repaired if damaged & anti-slip re-instated when worn in traffic areas.

MONOTEK® MonoChip® flooring systems are specifically designed with industrial & commercial applications in mind, as they **TOTALLY CURE IN ONE (1) HOUR**, so floor area shutdown time can be kept to the absolute minimum. In new construction floor areas, we can quickly complete large areas within tight schedules, allowing for other works & trades to rapidly re-commence.

MONOTEK® MonoChip® flooring systems can be applied directly over existing sound ceramic tiles, cement sheet or concrete, and also can be formed vertically into coving for wall/floor junctions & kerbing. Finally, **MONOTEK® MonoChip®** is available in a wide range of colour chips/ flakes, so it will compliment any contemporary design or décor.

Typical applications for **MONOTEK® MonoChip®** flooring have been in areas such as –

- TOILETS, LUNCHROOMS & CHANGEROOMS
- PLANTROOMS & DRY PRODUCTION AREAS
- KITCHENS, CANTEENS & FOOD PREPARATION AREAS
- BAR AREAS & COOLROOMS/FREEZERS
- PUBLIC FOYER / DISPLAY/ SERVICE CORRIDOR AREAS/ RETAIL SHOPS

MONOTEK® MonoChip® flooring systems are exclusively supplied & applied, Australia-wide by **D.P.J. Coating Systems Pty Ltd** (100% Australian owned, family business, established in 1977), and come with an "excuse proof" – 5 year guarantee of performance & materials.

We never use sub-contractors to apply **MonoChip®** flooring systems.
